ADHILA JAMAL K U

React & React Native Developer | Web, Mobile & E-Commerce

Calicut, India | +91 90375 96328 | adhilajamal89@gmail.com | linkedin.com/in/adhilajamal | github.com/adhilajamal

PROFESSIONAL SUMMARY

React and React Native Developer with 2+ years of experience building and shipping web and cross-platform mobile apps for Android and iOS. Skilled in React, React Native, TypeScript, JavaScript, Tailwind CSS, REST API integration, and state management (Zustand, Redux). Delivered e-commerce product browsing, cart, checkout, and Razorpay payment flows, push notifications, and reusable, performant UI components in Agile, cross-functional teams.

TECHNICAL SKILLS

Languages & Core: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React Native, React.js, Redux, Zustand, Tailwind CSS, Node.js, Express.js

Mobile & Integrations: REST APIs, Firebase, OneSignal Push Notifications, Razorpay Payment Gateway, Cross-Platform Development (iOS & Android)

Tools & Practices: Git, GitHub, MongoDB, Agile/Scrum, Debugging, Performance Optimization, UI/UX Best Practices, Responsive Design

Soft Skills: Communication, Team Collaboration, Attention to Detail, Adaptability, Active Listening

PROFESSIONAL EXPERIENCE

Mobile App Developer — Codesap Technologies *Jun 2025 – Present*

- Developed and maintained high-performance React Native applications for Android and iOS, improving app stability and reducing reported bugs through rigorous testing and debugging.
- Built reusable, modular UI components that cut new-feature development time and improved consistency across the codebase.
- Integrated REST APIs and third-party libraries to extend app functionality and improve real-time data handling.
- Collaborated cross-functionally with designers and backend engineers in an Agile workflow to deliver seamless end-to-end user experiences.
- Identified and resolved performance bottlenecks and critical bugs, increasing overall application stability and user satisfaction.

Frontend Developer — Oxmics Private Limited *Oct 2024 – Apr 2025*

- Built and optimized React Native and React applications ensuring seamless functionality across web and mobile platforms.
- Designed intuitive, accessible UI components, improving responsiveness and overall user experience across devices.
- Integrated third-party libraries and REST APIs to extend functionality, partnering closely with cross-functional teams on API design.
- Improved code performance and load times by refactoring components and enforcing development best practices, resulting in scalable, maintainable applications.

MERN Stack Intern — ICT Academy of Kerala *Jul 2024 – Aug 2024*

- Completed an intensive MERN stack internship, gaining hands-on experience building full-stack applications with MongoDB, Express.js, React, and Node.js.
- Integrated frontend and backend components to deliver dynamic, responsive, fully functional web applications.
- Strengthened debugging and problem-solving skills by resolving technical challenges across full-stack projects.
- Used Git for version control, ensuring smooth collaboration and code management within a team environment.

PROJECTS

StudyJam — Learning Management System (LMS) Mobile App | *React Native, TypeScript, Zustand, Firebase, Razorpay*

- Built a full-featured mobile LMS application in React Native with course browsing, video lessons, progress tracking, and secure authentication.
- Managed application state at scale using Zustand, improving maintainability and reducing re-render overhead.
- Implemented Razorpay-based EMI/payment flows enabling secure course subscriptions.
- Integrated Firebase/OneSignal push notifications to increase user engagement and retention.
- Integrated Google, Facebook, and Apple login for seamless and secure user sign-in and onboarding.

Department of Chemical Oceanography Website — CUSAT | *HTML, CSS*

- Designed and deployed a responsive departmental website with structured navigation and dynamic content updates.
- Ensured cross-browser compatibility, accessibility, and performance optimization.

DOPA — Medical Entrance (NEET) Prep App | *React Native, REST APIs*

Started by doctors from Government Medical College Calicut, DOPA guides aspiring medical students through entrance preparation, so the app has to stay fast and reliable for thousands of learners.

- Develop and maintain features in the React Native app for Android and iOS.
- Integrate REST APIs for course content, practice questions and learner progress.
- Build reusable UI components shared across screens to speed up new features.
- Fix performance bottlenecks and critical bugs to improve app stability.

Guboy — Pet Care & E-Commerce Application | *React Native, React, Tailwind CSS, Razorpay, OneSignal*

- Developed the React Native frontend for a pet care e-commerce app, including product browsing, cart, and checkout flows.
- Integrated Razorpay for secure payments and OneSignal for push notifications, improving transaction reliability and user engagement.
- Optimized performance and responsiveness across devices, ensuring smooth navigation and reduced load times.

EDUCATION

Master of Computer Applications (MCA)

CCSIT Calicut University (2022 – 2024)

- CGPA: 8.1 / 10

Bachelor of Computer Science (BCS)

MHES College of Science and Technology (2019 – 2022)

- CGPA: 7.56 / 10

LANGUAGES

English, Hindi, Tamil
